

Risma Nurhaliza

Software Engineer

+6285601100857 | rismanurhaliza30@gmail.com | Bojonegoro, East Java

Summary

Results-oriented Informatics Engineering graduate with skills in Data Analytics and Web Development. Proficient in data processing, SQL, data analysis, visualization, and extracting actionable insights to support data-driven decision-making. Strong analytical and problem-solving skills with a focus on data accuracy, system efficiency, and business solutions.

Experience

Programmer at PT Pertamina Training & Consulting (Apr 2025 - Present)

Built and monitored web-based applications using React and Next.js to support real-time operations and integrated database storage management. Responsible for developing dynamic user interfaces, handling client-side and server-side rendering, and ensuring smooth data synchronization between the application and the database. Implemented real-time features to maintain up-to-date data availability and system reliability. Performed continuous monitoring, debugging, and performance optimization to ensure application stability, scalability, and efficient data processing.

Fullstack Web Developer at PT Arkatama Multi Solusindo (Feb - June 2023)

Designed and developed complex full-stack web applications with a focus on performance optimization, improving system efficiency through enhanced backend architecture, database optimization, caching, and front-end performance strategies. Built scalable APIs for third-party integrations and collaborated closely with designers and developers to deliver responsive, userfriendly interfaces.

Frontend Engineer at PT Ruang Raya Indonesia (Aug - Dec 2022)

Managed the full lifecycle of front-end development using JavaScript and React, delivering projects on schedule while collaborating with designers and stakeholders to enhance UI/UX and client satisfaction. Conducted usability testing and performance optimization, developed reusable components with effective state management, and continuously adopted modern front-end best practices to ensure scalable, maintainable code and improved team productivity.

Certification

- Junior Web Developer - BNSP (2023)
- Associate Data Scientist - Digital Talent Academy (2026)
- Project Management - Google (2025)
- Quality Assurance - Digital Talent Academy (2026)

Additional Information

Proficient in Microsoft Office, Data Analytics, and Web Development, with skills in data processing, SQL, data analysis, data visualization, and database management using MySQL. Experienced with JavaScript, React, Laravel, PHP, Python, Node.js, RESTful APIs, Git, responsive web design, and debugging. Strong analytical and problem-solving skills, time management, and teamwork abilities.
